

# MD. MEHEDI HASAN SHANTO

Full Stack Developer (MERN Stack) | React.js | Next.js | TypeScript

Sirajganj, Bangladesh | +880 1871758989 | mhshanto.8989.t@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Full Stack Developer (MERN) shipping production-ready web applications across healthcare, travel, and AI-powered domains. Specializes in secure authentication, payment integrations, and scalable REST APIs backing responsive React.js/Next.js frontends — accelerated by AI-assisted development workflows.

## TECHNICAL SKILLS

**Frontend & UI:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Router, Context API, TanStack Query, Tailwind CSS, Framer Motion, GSAP, Responsive Web Design

**Backend & Database:** Node.js, Express.js, MongoDB, REST API Design, JWT Authentication, Better Auth, Firebase Authentication, Server-Side Validation, Stripe Payment Integration

**Tools & Deployment:** Git, GitHub, Vercel, Netlify, Postman, VS Code, ESLint, Prettier, Chrome DevTools, npm

**AI-Assisted Development:** ChatGPT, Gemini, Cursor, Antigravity, Prompt Engineering, AI-Assisted Debugging, Technical Documentation

## FEATURED PROJECTS

**MediCare Connect** — Healthcare Appointment Platform | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

*Next.js 15, Node.js, Express.js, MongoDB, Better Auth, Stripe*

- Built a full-stack healthcare appointment platform with three dedicated dashboards for patients, doctors, and admins.
- Implemented JWT and Google authentication with role-based access control, securing access across all three user roles.
- Integrated Stripe for online appointment payments and developed a digital prescription workflow for doctor-patient interactions.

**TripZen** — Travel Booking Platform | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

*Next.js, React.js, Node.js, Express.js, MongoDB, Better Auth, JWT, Google OAuth, Tailwind CSS*

- Engineered a full-stack travel booking platform enabling users to browse destinations, view detailed trip information, and manage bookings through a fully responsive interface.
- Implemented secure authentication with Better Auth, JWT, and Google OAuth, along with protected routes to restrict booking actions to authenticated users.
- Designed and deployed an independent Node.js/Express REST API with MongoDB, hosted separately from the Next.js frontend on Vercel for a scalable, decoupled architecture.

**ResumePilot** — AI Resume & Portfolio Builder | [Live Demo](#) | [Repository](#)

*Next.js, React, TypeScript, MongoDB, Clerk Auth, Google Gemini AI*

- Built an AI-powered resume and portfolio builder that parses skills and experience directly from uploaded PDF resumes.
- Integrated Google Gemini AI to auto-generate personalized professional summaries and shareable public portfolio pages.
- Implemented secure authentication with Clerk and structured MongoDB schemas to persist resume and portfolio data.

**StudyNook** — Study Room Booking Platform | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

*Next.js 16, React 19, Node.js, Express.js, MongoDB, Better Auth, HeroUI*

- Developed a full-stack study room booking platform with room management, availability tracking, and end-to-end booking workflows.
- Implemented Better Auth with Google Sign-In and protected routes to secure room booking and management actions.
- Built a fully responsive interface using the HeroUI component library with real-time form validation and toast notifications.

## EDUCATION & CERTIFICATIONS

- Complete Web Development with MERN Stack — Programming Hero (2025)
- Responsive Web Design & JavaScript Algorithms and Data Structures — freeCodeCamp
- Computer Science & Engineering Coursework — Phitron
- HSC (Science) — Islamia Government College, Rajshahi Board (2020), GPA: 5.00/5.00

## LANGUAGES & SOFT SKILLS

Bangla: Native | English: Intermediate (technical documentation, professional communication & interviews)

Problem Solving | Self-Learning | Technical Documentation | Team Communication | Feedback Handling | Deadline Ownership
